

Empowering businesses through advanced solutions

September 2020 edition

We are proud to announce that our team at Lee & Nee has won some prestigious projects in the past months for implementing BIZ ERP for multiple clients in the Manufacturing and Project Management Industry.

After the success of **BIZ ERP** all these years, we are motivated and excited to launch the remodel version of **BIZ ERP**

The remodel version of **BIZ ERP** will have the below modules:

CRM

Inventory

Purchase

Job work

Sales

Reports

We are extending our boundaries and soon the remodeled **Biz ERP** will be available across India.

About Biz ERP :

BIZ ERP is an end to end business management solution that enables an organization to connect and streamline the entire process while growing with your business. It enables the management to have a bird's eye view of all the different components right at the dashboard.

Project Deadlines

Project Payback
Proportion

Resources Allocation
Per Project
