

Industry 4.0 For Manufacturing Industry

by Lee & Nee Softwares (Exports) Ltd. and SAP India

Lee & Nee Softwares (Exports) Ltd. is one of the most trusted SAP partner companies in India. They help companies achieve their objectives by applying business processes and information technology to their business, and leveraging strong alliance and joint development initiatives with SAP.

Mahesh Gupta, CEO of Lee & Nee Softwares (Exports) Ltd. during his welcome speech on Industry 4.0

Industry 4.0 – An Overview

- A name for the current trend of automation and data exchange in manufacturing technologies.
- Cyber-physical systems - the Internet of things, cloud computing and cognitive computing and creating the smart factory.

Challenges faced by Industrialists

- Information is scattered in different places
- No transparency in progress of work
- Unable to track inventory and production
- Employees do not take accountability
- No proper MIS reports
- CFO – Chief Follow up Officer Handling emergencies & Fire fighting entire day
- Managing Compliances is very stressful
- Unable to deliver on time
- Sales team not achieving targets

The core aspects of SAP Business One

SAP B1 is designed for management and quick decision making with accurate and real-time data. SAP B1 is accelerated by technologies like the Internet of things (IoT), Machine learning and Blockchain. These technologies give your company the ability to change your business models and create new products and services in the digital economy.

How SAP B1 helps in Business?

- Management & Administration
- Accounting & Financials
- Inventory & Distribution
- Production & MRP
- Project & Resource Management
- Sales & Service
- Purchasing & Operations

LNSEL has been the implementation partners of SAP for over a decade. We have successfully executed SAP B1 implementations for more than 20 organizations across multiple industries.

SAP B1 & Industry 4.0

Mr. Bharat Gupta, Associate Director - Enterprise Sales, SAP Solutions of Unecops talked about Industry 4.0 - Understanding & Statistics. He discussed how the advanced technology of SAP B1 can help in adopting Industry 4.0 in the manufacturing Industry.

A Detailed Discussion on IoT

Mr. Saikat Ghosh, IoT Head of Lee & Nee Softwares speaking about Internet of Things & its application.

Digitization is advancing at a rapid pace, and innovative pioneers are successfully defining and implementing digital agendas. Industry 4.0 and IoT, defined as intelligent, interconnected equipment and products autonomously communicating and optimizing along the entire value chain, are key elements of this digital revolution.

Some words of encouragement by our client

Mr. Siddharth Bhutoria, President of RTS Power Corporation Limited speaking about his experience on SAP B1 & LNSEL

RTS Power Corporation Ltd. is one of the biggest Transformer & Cablewire manufacturing companies in India. LNSEL has implemented SAP to them since the last 10 months. Mr Bhutoriya shared his experience with SAP B1 implementation done by LNSEL.

"We are happy with the way the BoQ & the raw materials are designed. Things can be flagged very easily. These user-friendly features of SAP B1 have improved our process of production. Thanks to the whole team of Lee & Nee for being very helpful & responsive to us in the implementation" – Mr. Siddharth Bhutoria
