Experience

Arham Labs
Mumbai
Backend Developer
09/2021 - 02/2024

Arham Labs is a digital consulting and product development company that offers strategy, design, engineering, and analytics solutions. We aim to drive growth and address unique business challenges for corporations.

- Collaborate closely with Frontend Developers, Copywriters, UX Designers, and UI Designers.
- Develop high-fidelity user-facing application back-end code, matching design mockups and requirement documents to pixel-perfection.
- Evaluate implementation feasibility of UX/UI designs within the constraints of the project.
- Build reusable code, patterns, and libraries for future development using best practices.
- Optimize code/builds for performance and scalability, and where applicable, search engines. Guidelines for these will be provided.

Projects:
- Recruitment Portal.
- Sodamama.
- Chartered shuttle.
- Intern theory
