I am a passionate and results-driven web developer specializing in Laravel framework, with approximately three years of hands-on experience. My journey in web development has been marked by a commitment to excellence, continuous learning, and a genuine enthusiasm for crafting elegant solutions.

WORK EXPERIENCE

● Nov 2022- Present | Web developer - laravel

Excellis IT Pvt. Ltd

Groomely: Created an appointment booking website for barber shops, enabling online bookings for users and service management for shop owners. Admin interface allows CMS management of services, bookings, and website content and making RESTful APIs for mobile application.

website link: <https://groomely.com/>

Design Journey: Crafted a subscription-based website for web designers, enabling custom design uploads and management via personalized dashboards. Various subscription plans offer diverse features, optimizing workflow for efficient design service delivery. Creating RESTful API for mobile application.

RCI (DRDO) : This project focuses on developing a comprehensive system for calculating employee payments and generating payslips for the Research Centre Imarat (RCI) under the Defence Research and Development Organisation (DRDO). Storing and managing employee details, including personal information, job roles, and salary structures. Ensuring all tax calculations and deductions comply with current regulations and policies.

● 2021- Oct 2022 | Junior Web developer

Webhibe Technology Pvt. Ltd

Helper Place: Developed a website connecting domestic helpers with job opportunities. Helpers can search and apply for jobs, while users can post job listings for domestic help positions.

Ecommerce: Designed a website for manufacturers to list agricultural products with prices. Distributors manage product stocks, and POS facilitates product delivery to users within specific pincode. Users can purchase fertilizer, seeds, and more directly from the website. Making API's for mobile application.
