Experience

About Me

A highly skilled Graphic Designer with over two years of experience, specializing in creative visual solutions. I completed my Madhyamik and H.S. under the West Bengal Board in 2018 and earned my B.Com. from Gurudas College in 2021. My passion for design led me to further my expertise at Arena Animation, where I honed my skills in advanced graphic design techniques. With a strong foundation in both commerce and design, I bring a unique blend of analytical and creative thinking to every project.
